FINANCIAL AND COMMERCIAL.

The stock market was rather dull at the early session of the open board this merning, and at the first regular board there were large sales to realize, partly owing to the report, which was afterwards contradicted, that the Secretary of the Navy had ordered the iron-chais to be made ready for sea. New York Central, Eric and Prairie du Chien were strong, but the rest of the list were barely steady. The former closed & higher than at the second board yesterday under the continued purchases of the Richmond-Vanderbilt and the Corning-Albany parties. The immediate cause of the pending contest is the pro-Richmond-Vanderbilt and the Corning-Albany parties. The immediate cause of the pending contest is the projected change of the eastern terminus of the Central road from Albany to Athens by the extension of the line from Schenectady to the latter place on the Hudson, below Albany, to and from which point the railway freight will be carried by steamers after the completion of the work. The Albany property owners are naturally strongly opposed to this change, as also is the New England railway interest, and these are all represented in the Corning ticket. Mr. Chauncey Vibbard is understood to have gone to Europe to secure proxies in support of the latter. As the election takes place on the 13th of December, and as stock requires to be registered for thirty days in the name of any person who proposes to vote upon it, the inference is that the struggle on the Stock Exchange will take place between the present for thirty days in the name of any person who proposes to vote upon it, the inference is that the struggle on the Stock Exchangs will take place between the present time and the 13th inst. There are several brokers actively engaged on both sides in the amusing sport of "killing stock"—that is, buyring and causing fresh transfers to be made whenever a name supposed to be in the interest of the opposite party is mot with. Opinious are at present divided as to the result, but the contest promises to be a very spirited one. Erie was well sustained, notwithstanding that the reported arrangement between the Great Western and Morris and Easex and Catawisza roads gained credit. It was reported that the terms of the arrangement with the Morris and Easex Company were in the form of a perpetual lease, the stockholders in the latter to be paid eight per cent per annum after the payment of the next dividend at the regular rate of six per cent. The total amount of the stock outstanding is three millions. The Atlantic and Great Western and Catawisza roads and the bonded dobt is three and a half millions. The Atlantic and Great Western son testion is in process of construction. The arrangement referred to its said not to include the Sunbury and Erie road, the Great Western proposing an extension of their own line to the Catawissa from Somerset.

Doubts, however, are freely expressed as to the arrangement baring been finally concluded, and, in any event, the anticipated competition with the Frie will not be felt for a long time to come.

The decline in Eric at the first board as compared with vesterday's second was ½, Reading ¾, Cloyeland and to restore the proposing an extension of their own line to the Catawissa from Somerset.

The decline in Eric at the first board as compared with vesterday's second was ½, Reading ¾, Cloyeland and the regular of the completition with the Erie will not be felt for a long time to come.

rns decline in Eric at the first board as compared with yesterday's second was ¼, Reading ¾, Cleveland and Pittsburg 1¾, Northwestern 1¾, preferred ¾, Rock Island ¾, Fort Wayne ¾, Ohio and Mississippi certificates ¾, Canton 1. Pacific Mail scrip sold at 240. Government ment securities continued inactive but steady. After the call and at the one o'clock open board the

market continued slightly depressed; but at the second regular board there was an improvement of tone. Quotations were generally % a % lower than at the close of the first board, Prairie du Chien excepted, which adranced six per cent under a cornering movement. Government securities were dull but steady.

There was a much stronger warket after the call, and t the open board at half-past three Prairie du Chien exat the open board at half-past three Prairie du Chien ex-perienced a further advance of two per cent, closing at 82%, showing a rise of thirty-four per cent since the 15th of September. New York Central sold at 100% a 101%, Eric 93%, Hudson River 107%, Cleveland and Pittsburg 80%, Reading 115%, Rock Island 109, Northwestern 33%, preferred 63%, Fort Wayne 106%, Michigan Southern 73%, Terre Haute and Alton 49, or 4% higher than at the first board: Haute and Alton 49, or 434 higher than at the first board; Ohio and Mississippi certificates (a.3.) 20%, Cumberland Afterwards, on the street, the market was firm.

Afterwards, on the street, the market was firm. The gold market was firm, and after opening at 146 rose to 146% and closed at 146%. Loans were made by the borrower paying three per cent interest on the currency, and in some cases as much as 1-32 was paid by weak parties. This increase of firmness was owing to the same iron-clad report which unsettled the stock market, the demand from importers for customs duties, as well as speculation for a rise, being stimulated

principal items of the public debt it stood on the 31st of October elegraphed from Washington this afternoon. The total shows a decrease of \$4,092,961, as compared with the statement dated September 31. The debt bearing interest in coin has increased \$44,479,500, owing to the t funding operation, and the compound interest have decreased \$44,000,000. The one and two bt bearing no interest has increased \$19,632,285, but the debt bearing interest in lawful money has decreased \$68,189,332, which is also almost entirely owing to the \$1,614,198, but the currency has, according to the figures telegraphed, undergone a decrease of \$22,435,819. The following presents a comparison of the principal

coin	1,116,658,191	\$1,161,137,691

The money market was moderately easy to the Stock Exchange at seven per cent, and the reported increase of in the afternoon was very circumscribed in its There is no likelihood of the course of monetary affairs interfering at all with speculation on the Stock Exchange. The discount line continues active. The Directors of the First National Bank of New York

have this day declared their fifth and regular semi-annual dividend of ten per cent out of the net earnings of the past six morshs, payable on and after Tuesday, the 7th instant. After this dividend the bank has remaining \$250,000 of surplus profits.

Petroleum stocks were firm at the first board. Be

was 55c. higher than yesterday morning, Pithole 50c. United States was 25c. lower. At the second board Bonnehoff Run clessed at \$13 50, Buchanan 50c., Bradley \$1 10, Brevoort \$15, Excelsior 65c., Fas Simple 17c., Pirst National 85c., High fints 37c., Oil Creek \$1 50, Pithole \$11-75, United States \$28 25, Webster \$1 31.

The government receipts from customs in gold for the first quarter ending September 30 amounted to the enormous sum of forty-six millions two hundred and thirtysoven thousand two hundred and seventeen dollars, or four millions more than half the total receipts from this source during the fiscal year ending 30th of June last, and nearly half as large as the annual receipts for 1984, which were the largest over received since the formation The receipts for the month just ended will be more than ten millions. The receipts for the fiscal year ending June 30, 1865, at the rate of the amount for the first quarter, will be \$184,948,885, which will make the total revenue of the government for

twelve months over five hundred millions.

The amount collected in gold for duties on foreign merchandise imported at Boston averaged for Monday, Tuesday and Wednesday this week about \$112,000.

One of the latest reports set in motion in order to infuse vitality into a petroleum company is to the effect that after boring six hundred and twenty-five feet a hard

that after boring six hundred and twenty-five feet a hard stratum was struck, which proved to be two and a half to three feet thick, the substance of which was withdrawn, sent to Philadelphia, analyzed, and two deliars and thirty-three cents of twenty carast gold taken therefrom. The discovery, the story informs us, created mech excitement, and wild spoculations were rife respecting it, and preparations made for shafting for more of the precious metal. The finding of gold bearing quarts in the bowels of the earth, even in the locality of Dunkard township, Pa., admits of no question, but the idea of boring six hundred and seventy-five feat for two dellars and thirty. red and seventy-five feet for two dollars and thirty-

of the wildest specimators in petroleum shares to raths too great an extent.

The following will show the weekly receipts of flour and grain at the places indicated for the week ending

the range of our last quotations. Some very choice Porto R.co was held at \$1 15 for small lots, without sales.

Proveness.—Receipts, 300 bbls. pork, 472 packages beef, 2,847 do, butter and 1,795 do, cheese. The pork market was unsettled and prices were irregular, closing heavy and lower at \$33 37%, regular, for meas. The sales were to a fair extent, comprising nearly 9,000 bbis, at \$33 25 a \$33 75 for meas and \$28 59 a \$39 for prime meas. Prime was nominal at \$29 in the absence of sales. The inquiry for beef was moderate and prices were well sustained. The sales were about 900 bbis, at \$11 a \$14 for plain meas and \$14 a \$17 for extra meas. Beef hams were in moderate request at full prices. We note further sales of 200 bbis. Western, to arrive, at \$37 50. Bacon was nominally unchanged in every respect. Cut meats were wanted; but the low supply prevented operations in a great measure. The sales covered \$30 packages, at 24c. a 23 ½c., the latter an extreme price for very choice, in small parcels. Butter and cheese were unchanged; the demand was mostly all from the trade.

Permotisus.—Receipts, none. The market was dull, heavy and nominal. Sales were confined to about 1,500 bbis, in lots, at 35c. for crude, 59c. a 60c. for refined, in bond, and 75c. a 78c. free.

Rice was somewhat more active. We note sales of 200 bags Rangoon at 9½c. a 10½c. and 100 do. Patea at 10½c.

Sycaas.—The market was without decided change, though on the whole it had a much firmer tone, as the inquiry was somewhat greater and holders, as a general thing, were less inclined to sell. The sales were 250 hds. Porto Rico at 16c and 500 bbas. Havana on private terms. The market for refined was also more sottive, and though the tendency was in salies's favor we noted no quotable change in prices.

Tatlow was more settive. Abous 150,000 lbs. sold at

16c. a 14%c.
TORACCO.—Receipta, 241 packages. The market was very quiet, but prices were well supported. We note sales of 146 hhds. Kentucky, in lots, at from 7c. to 23 %c., and 19 cases seed leaf at 24%c.
WHERT.—Receipts, none. The market was quiet, but prices were well maintained. The sales were about 256 bbis. Wester n at \$2 38.

Boston, Nov. 2, 1865. The British steamship Marathon, from Liverpool th 19th ult, arrived here to-day, bringing a large of

our factomal Currency-Passage of Re-circus-Brantl and the United States-Remarks of the Rev. J. C. Pletcher-Sener d'Azambuja, the Brazilian Min-ister, Introduced to the Chamber, &c. The regular monthly meeting of the Chamber of Com-merce was held yesterday afternoon. In the absence of Mr. A. Low, President of the Chamber, Mr. William V. Dedge counted the chamber, Mr. William

to seats by Cotones conking.

The minutes of last meeting being read and approved, the following now members were balloted for and elected:—Mesera Francis Baker, David B. Dearborn, William C. Gilman, Charles H. Ludington, Theodore Bayley Myors, William Seligman and Mose Taylor.

Mr. V. S. Leithree was residented as Chairman of the

m. tesolved, That copies of these resolutions, duly at-ted by the officers of the Chamber, be forwarded to President of the United States and the Secretary of

After some discussion these resolutions were adopted. The following change was made in the bylaws relative to the admission of new members to the Chamber:—
All nominations for membership of this corporation must be made in writing, accompanied by a statement of the occupation and qualifications of the candidate, and addressed to the Executive Committee for consideration. When reported by the committee at the next regular meeting of the Chamber the candidate shall be balloted for, and if five or more negatives appear against any candidate he cannot be admitted a member nor be again proposed until after the expiration of one year from the date of such rejection.

Routine business was here dispensed with, when the chairman rose and remarked that Rev. J. C. Fletcher, from Brazil, was present. It was then eighteen months

since the Chamber had heard him speak. He had resided thirteen years in Brazil. He came there to congratulate the Chamber and to be congratulated upon the success which had resulted in the organization of a steamship line between Brazil and the United States.

The CRAIMMAN then introduced Mr. Fletcher, who was greated with applause. The reverend gentleman then came forward and spoke for about three-quarters of an hour, principally upon the movement which had organized a line of steamships between Brazil and the United States. He did not take to himself all the glory, but handsomely acknowledged what had been done by Henry Forster & Co., of Pernambuco; by the Hon. Tavares Bastos, of the Brazilian Parliament, and particularly by Mr. Arango, the agent of the United States and Brazil Mail Steamship Company at Rio Janeiro during the past season. He slao mentioned the aid and sympathy of Brazilians from the Rio Chamber of Commerce, from distinguished statemen, and from his Excellency Senor d'Azambuja, who was present. After a few preparatory remarks he introduced Senor d'Azambuja, whom he strongly eulogized for his abilities as a statesman and scholar, and also for his adherence and sympathies with all American movements in his own country.

The Senor then came forward and made the follow:

100 file is a 2014 100 do. 80 pt. 100 file on the past seams. He also mentioned the aid and synthesis of the past seams. He also mentioned the aid and synthesis of the past seams. Mr. Princepar continued his address, and caned attention to the vast commercial benefits which must result from the intinactes existing between the Brazilian and United States governments. The commerce of Brazilianounted to a sum of about sixty million dollars, and that of the West indes to forty-the millions. The gentlemna also called attention to the extension of emancipation ideas in Brazil. The subject was canvassed, talked and read about among the most prominent of the country. He (Mr. Fletcher) had purchased and circulated several works upon the subject, and in the Emperor's library he had seen the work on emancipation of Mr. J. J. Gurney, which that distinguished gentleman was in the habit of reading frequently.

and frequently applauded.
Colonel F. A. Cossesso moved that the remarks of both gentlemen be printed in the annual report of the Chamber, together with all other proceedings incidental

STREET CLEANING.

new contract. The inspection was not quite so rigid during the time of the strike. The suspension was merely for the purpose of informing those interested in the matter of how the work was done. The Police Commissioners were of opinion that the affidavits made in relation to the non-cleaning of certain streets were sufficient to make a primar fact, case, and if further information was wanted they were ready to give it. Some of the streets not cleaned the Police Commissioners thought quite possible were omitted by the permission of the street Cleaning Commissioners. There were over one hundred and twenty-five witnesses, who would be produced when the proper time arrived. Each of the streets complained of as not being cleaned was watched by three men, one of whom was continually on duty. He would not say it was quite possible some of the reports made might have been erroneous.

Mr. Davins believed the streets could not be kept properly clean while garbage was permitted to be thrown into them. He asked was there not some punishment allotted to offences of that description.

Mr. Hawley stated that the Commissioners could not get any legal opinion to suntain them in making arrests.

Recorder Hoyrman remarked it would simplify matters considerably if the contractors would put in a sworn statement of the days on which every street was cleaned.

Mr. Vandeword, for the street contractors, said a record had not been kept in the case of the Fifth ward. He then discussed at some length the law in regard to the breaking of city ordinances. He imagined and was of opinion the police could arrest parties for throwing gartage in the streets. As to the omission to clean some of the streets, some of them between Third and Fourth avenues were omitted because the occupants of the houses preferred doing the work thomselves.

Mr. Hoyrman thought the contractors ought not to be allowed any discretion in the matter. It was necessary they should perform their contract. The complaint charged that certain streets had not been swept. The c

streets.

Mr. Hawley stated they intended to do so.

The Commission then adjourned to Monday next, at eleven A. M.

MARRIAGES AND DEATHS.

His remains were taken to Wethersfield, Connecticut, for interment.

Kreuur.—On Wednesday, November 1, Pries J.

Krough, aged 20 years and 3 months, late member of Company 6, One Hundred and Sixty-second regiment New York Volunteers.
